

PALLET RACK ACCESSORIES

Enhance warehouse racking systems with our selection of pallet racking accessories.

OPTIONS:

- **Row End Protectors**
 - Protect vulnerable rack ends from accidental forklift damage—ideal for high-traffic warehouse zones.
- **Barrier Rails**
 - Shield racking, shelving, and critical infrastructure (like forklift battery chargers, vending machines, conveyors).
 - Define pedestrian zones, loading bays, and doorways for safer movement.
 - Support compliance with current Health & Safety regulations.
- **Post Protectors**
 - Reinforce upright columns against impact at ground level—simple, effective rack protection.
- **Safety Bars**
 - Prevent pallets from accidentally falling through or off racking—boosts warehouse safety and minimizes product damage.
